PROFILE

Motivated Flutter Developer with experience in building user-friendly mobile apps using Flutter & Dart. Skilled in performance optimization and problem-solving, eager to contribute to a dynamic team.

EXPERIENCE

Freelance / Personal Projects
02/2024 – Present
- Improved user experience and increased functionality through integration of third-party APIs and services.
- Optimized application performance and scalability through code refactoring and reducing technical debt.
- Collaborated with stakeholders to define app requirements and delivered solutions that improved user engagement.
- Provided ongoing support and maintenance, continuously improving app performance and stability.

SKILLS

Technical Skills
Dart | Flutter | Java | Object-Oriented Programming | Firebase | RESTful API | Provider | GetX | Hive | Git

Interpersonal Skills
Time Management | Teamwork | Problem Solving | Communication | Clean Code

PROJECTS

07/2024 – 08/2024   **Crafty Bay E-commerce App** ⤢
Technology Stack- Flutter, Dart, REST API, GetX
- Developed an e-commerce app in Flutter with product browsing, search, and cart management.
- Integrated SSL Commerze to enable seamless and secure transaction processing.

08/2024 – 08/2024   **Real time location tracker** ⤢
Technology Stack- Flutter, Dart, Provider
- Built a real-time location tracker app in Flutter with Google Maps SDK, featuring live speed, route polylines, map type options, and traffic data.
- Designed a user-friendly interface with customizable map overlays for enhanced navigation.

06/2024 – 08/2024   **FCLP E-Commerce and Air Ticket Booking App**
Technology Stack- Flutter, Dart, Rest API, Provider
- Developed and implemented e-commerce features for the FCLP mobile app.
- Designed and integrated air ticket booking module.
- Managed referral system and point withdrawal functionality.

06/2024 – 07/2024   **Task Manager** ⤢
Technology Stack- Flutter, Dart, Rest API, Provider
- Streamlined signup/login processes with secure JWT authentication.
- Integrated REST API for task management, supporting creation, modification, and deletion with progress tracking.

05/2024 – 05/2024   **Nimbus Now - Weather App** ⤢
Technology Stack- Flutter, Dart, Rest API, Provider
- Designed and implemented real-time weather data and forecast features.
- Developed a responsive, user-friendly interface.

EDUCATION

01/2020 – 03/2024
Dhaka, Bangladesh

Bangladesh University of Business and Technology ⤢
BSc in Computer Science & Engineering
CGPA - 3.57
